Aircraft Safty Portable

Light Box

Aircraft Safty Portable Light Box

Model: BSE-PL-CR-001

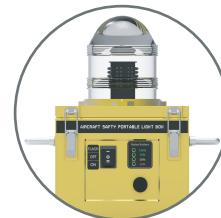

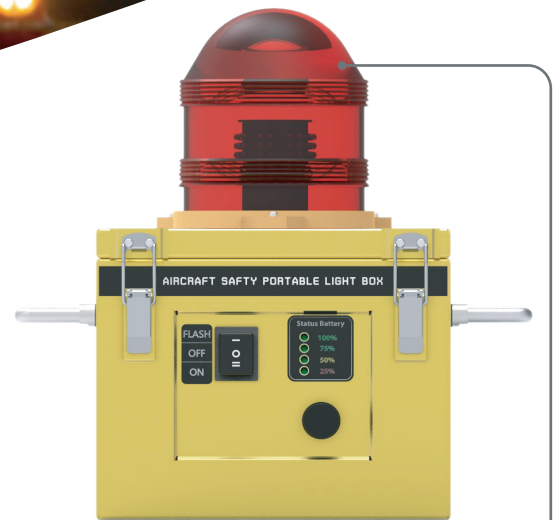

BSE-PL-CR-001 is an ultimate functional Aircraft Safty Portable Light Box

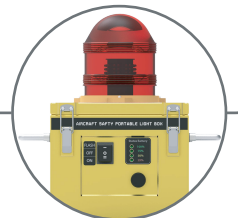

- Used for increasing the efficiency for Aircraft Safty Warning Light System
- Long Lasting Battery Life Time
- Solidly Built Case for any weather and Easy to access for Maintenance

Specifications

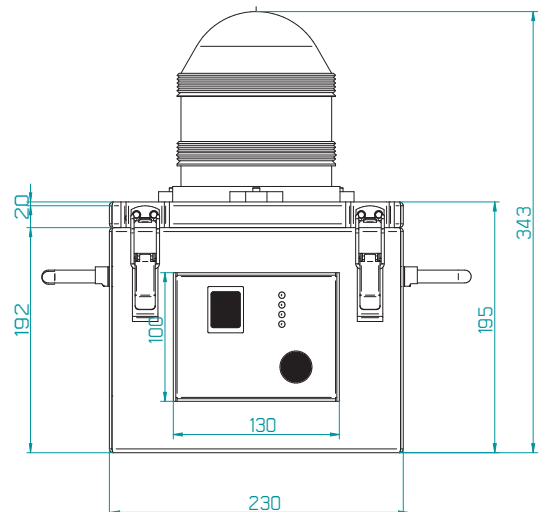

Lens Type	Polycarbonate Lens, Clear or Red
Light source	Ultra high intensity LED (RED)
Light Color	RED
LED Rated Lifetime	100,000 hr
Battery Type	Sealed lead acid 12V 14Ah free maintenance
Charging	13-15 VDC
Light Intensity	>20cd/m2
Switch Mode	ON/OFF/FLASH
Working time	>15Hour Steady burning
Operating temperature	range -30° to 60° Celsius
Dimensions (HxWxL)	230 x 343 x 190 mm
Body	Cast aluminum housing with yellow powder coated
Weight	7 Kg
IP Rating	IP67

Clear Polycarbonate

Red Polycarbonate
